GRIPPER

GRIPPER

23 x 35
9x12 Booklet
Std Die - C34 ; R5 (PC)
2 out

THIS SIDE UP!

ATTENTION PRODUCTION

DO NOT CHANGE OUR LAYOUT FOR ANY REASON

1. Please allow 3/16" on all sides for any bleeds.

2. Stock must be delivered flat, well jogged, protected and face up.
If we have to trim or jog your stock before cutting, you will be notified in advance and charged accordingly.

3. Cutting marks are essential for die cutting in the proper position.
Keep the marked sheets separate, clearly marked and at the top of the load. We suggest that you run the first 2% of your printed stock with cutting marks and then remove them for the balance of the run.

4. Provide a rule-up, blueline OR sample for position.
